EDUCATION

Lahore University of Management Sciences – BSc (Hons.) Accounting and Finance 2022-2026

ACCA - 9/13 Papers Completed

Divisional Public School and Inter College – F.Sc Pre-Engineering, (94.27%) 2020-2022

Key Courses: Data Science, Data Analytics for New Product, Probability and Statistics, Intro to Management Sciences, Intermediate Finance, Corporate Financial Reporting, Applied Corporate Finance, Portfolio Management

PROFESSIONAL EXPERIENCES

Systems Limited - Business Analytics Intern July - September 2025

- Developed 20+ Power BI Data Visualizations dashboards and mobile applications for Ma'aden's CRM analytics, serving 100+ end users and reducing decision-making time by 40% through real-time customer insights and performance metrics.
- Executed Snowflake and Star Schema data models using advanced DAX coding and Excel-based data validation to transform datasets exceeding **100,000** records from multiple connected databases, improving query performance by **60%** with faster reporting cycles.
- Delivered actionable analytics insights to senior client stakeholders through interactive dashboards and mobile-responsive applications, contributing to **15%** improvement in customer retention strategies and targeted acquisition campaigns.

KalPay - Data Analytics Intern September - November 2024

- Engineered end-to-end ETL pipelines integrating Google Sheets databases with analytics infrastructure, automating previously manual data workflows, and saving **10+** hours weekly across operations teams.
- Created automated data transformation scripts using Python and Excel to standardize and Data Cleaning from **20+** Google Sheets sources, improving data consistency and enabling cross-functional reporting.
- Deployed real-time data integration solutions connecting Google Sheets to Power BI dashboards, providing leadership with instant access to key business metrics and operational KPIs.

KPMG Pakistan – Audit and Assurance Intern June - August 2024

- Performed compliance testing and risk-based financial audits of Pearl Continental Hotels across 8+ locations, identifying control weaknesses and flagging **PKR 2.8 million** in financial discrepancies through systematic sample reviews and audit procedures.
- Assisted in interpreting regulatory requirements and mapping them to business processes across 8+ locations, improving audit coverage by **25%** and reducing identified control weaknesses by **30%** through structured risk assessment procedures.
- Verified and traced financial transactions worth **PKR 71+ million** against threshold materiality levels using Excel-based Sampling and Variance analysis, drafting audit findings and supporting remediation tracking to ensure compliance with applicable regulatory standards.

PROJECTS

Data Science Capstone Resume Building Project Fall Semester 2025-2026

- Developed **ResiFit**, an AI-powered resume optimization platform using Python, NLP (spaCy/NLTK), and TF-IDF to analyze **50,000+** job descriptions across 8 roles and generate ATS-compliant keyword recommendations.
- Performed statistical analysis, NRC/AFINN sentiment analysis and LDA topic modeling on job posting corpus to extract role-specific language patterns, informing resume scoring algorithms with **85%+** ATS match improvement.
- Designed full product strategy including real-time feedback dashboard, keyword extraction pipeline, and job recommendation engine, targeting **2M+** graduating students with freemium B2C model.

AI-Powered Client Acquisition Automation – Soch Consulting, Estonia (Industry SPROJ) Spring Semester 2025-2026

- Built a Job Extraction workflow in **n8n** using Apify web scraping and **10+** filtering criteria to auto-generate pre-populated ClickUp tasks, processing up to **200 Upwork job listings** per keyword in **4–8 minutes**.
- Developed a Proposal Generator workflow integrating the Claude API across 7 consultant-specific AI personas to draft, upload (Google Drive), and post client proposals via ClickUp in **25–60 seconds** per job, cutting manual effort per job by **90%+** (20–25 min to under 2 min) at under \$0.03 marginal cost.
- Deployed both workflows live at Soch Consulting, validating the system across **62** tracked Upwork bids and demonstrating a scalable, low-cost automation model for small consulting firms' client acquisition.

LEADERSHIP & EXTRACURRICULARS

LUMS Career Services Office - Career Fair Ambassador February 2025

- Assisted in the planning and execution of a large-scale Career Fair featuring **220+** employers and **8,000+** students.
- Managed on-site operations for **8-hour** career fair event, supporting **50+ employers** with booth assembly, technical troubleshooting, and logistics, ensuring zero event delay.

LUMS Teaching Assistant - (Probability and Statistics, Principles of Macroeconomics, Principles of Auditing) 2024-2026

- Facilitated weekly tutorials, office hours, and grading for 150+ students across Probability & Statistics, Macroeconomics, and Auditing, reinforcing statistical and quantitative concepts directly applicable to data analysis coursework.
