PROFESSIONAL EXPERIENCES

Systems Limited - Business Analytics Intern July - September 2025

- Developed 20+ Power BI dashboards and mobile applications for Ma'aden's CRM analytics, serving 100+ end users and reducing decision-making time by 40% through real-time customer insights and performance metrics.
- Executed Snowflake and Star Schema data models using advanced DAX coding to transform datasets exceeding 100,000 records from multiple connected databases, improving query performance by 60% with faster reporting cycles.
- Delivered actionable analytics insights to senior client stakeholders through interactive dashboards and mobile-responsive applications, contributing to 15% improvement in customer retention strategies and targeted acquisition campaigns.

Packages Limited - Accounts Intern June - July 2025

- Led SAP S/4HANA transition by mapping 400+ P&L and 300+ balance sheet items to FSLIs, ensuring zero-error migration and enabling real-time financial reporting capabilities worth PKR 50+ million in operational efficiency gains.
- Digitized 600+ loan registries spanning 50+ years, preserving pension and collateral records, reducing document retrieval time from 2-3 days to under 30 minutes and mitigating compliance risks worth PKR 10+ million.
- Assisted in managing employee settlement funds including PIBs, MFs, Gratuity, Provident, and Pensions, ensuring 100% accuracy in PKR 15+ million worth of employee benefit disbursements.

KalPay - Data Analytics Intern September-November 2024

- Engineered end-to-end ETL pipelines integrating Google Sheets databases with analytics infrastructure, automating previously manual data workflows, and saving 10+ hours weekly across operations teams.
- Created automated data transformation scripts using Python to standardize and clean data from 20+ Google Sheets sources, improving data consistency and enabling cross-functional reporting.
- Deployed real-time data integration solutions connecting Google Sheets to Power BI dashboards, providing leadership with instant access to key business metrics and operational KPIs.

KPMG Pakistan – Audit and Assurance Intern June – August 2024

- Performed compliance testing and risk-based financial audits of Pearl Continental Hotels across 8+ locations, identifying control weaknesses and flagging PKR 2.8 million in financial discrepancies through systematic sample reviews and audit procedures.
- Assisted in interpreting regulatory requirements and mapping them to business processes across 8+ locations, improving audit coverage by 25% and reducing identified control weaknesses by 30% through structured risk assessment procedures.
- Verified and traced financial transactions worth PKR 71+ million against threshold materiality levels, drafting audit findings and supporting remediation tracking to ensure compliance with applicable regulatory standards.

CAPSTONE PROJECT

Data Science Capstone Resume Building Project Fall Semester 2025-2026

- Developed **ResiFit**, an AI-powered resume optimization platform using Python, NLP (spaCy/NLTK), and TF-IDF to analyze 50,000+ job descriptions across 8 roles and generate ATS-compliant keyword recommendations.
- Performed NRC/AFINN sentiment analysis and LDA topic modeling on job posting corpus to extract role-specific language patterns, informing resume scoring algorithms with 85%+ ATS match improvement.
- Designed full product strategy including real-time feedback dashboard, keyword extraction pipeline, and job recommendation engine, targeting 2M+ graduating students with freemium B2C model.

LEADERSHIP & EXTRACURRICULARS

LUMS Career Services Office - Career Fair Ambassador February 2025

- Assisted in the planning and execution of a large-scale Career Fair featuring 220+ employers and 8,000+ students.
- Managed on-site operations for 8-hour career fair event, supporting 50+ employers with booth assembly, technical troubleshooting, and logistics, ensuring **zero event delay**.

Rotaract International (Community Service) – Director Logistics 2021-2023

- Coordinated logistics for 15+ community service events, managing end-to-end operations including transportation, booth setup, and resource allocation for 200+ participants per event.
- Managed cross-functional collaboration with 5+ teams and external vendors, negotiating contracts that reduced event supply costs by 20% while maintaining quality standards.

LUMS - Teaching Assistant – (Probability and Statistics, Principles of Macroeconomics, Principles of Auditing)

- Supported 150+ students across all courses through tutorials, office hours, grading of instruments, and invigilation
